At the *HEART* of the *COMMUNITY*

ROBERT OWEN HOUSE is effectively a ***"safe haven in time of need".*** First opened in 1995, it has provided accommodation to thousands of family members of patients undergoing life saving heart and lung operations in one of ***Britain's*** top top ***Hospitals of Excellence,*** the Liverpool Heart And Chest Hospital.

ROBERT OWEN HOUSE provides overnight accommodation to relatives and carers of patients who find themselves in the Liverpool Heart & Chest Hospital, often requiring life-saving heart or lung treatment or surgery, avoiding the need for family members to have to find accommodation in Liverpool, with all the associated problems. More than anything else it gives peace of mind to the patients, knowing that their loved ones are safely housed nearby whilst they are undergoing serious, often major surgery.

Every year over a thousand Island residents **find themselves in the the Liverpool Heart & Chest Hospital** (part of the Broadgreen Hospital campus)**,** undergoing major heart or lung treatment. This ranges from replacement of valves, fitting of pacemakers, to major by-pass surgery, levels of treatment that cannot be undertaken at our own Nobles Hospital.

Residents of the Isle of Man, whose family members are undergoing treatment in the hospital, **occupy 50% of the existing bed night accommodation in Robert Owen House.** Considering the LHCH has a catchment area of over three million people, the Island does extremely well.

No NHS or other Government Department money is given towards maintenance and upkeep. **The Robert Owen House Trust relies solely upon income from room charges plus donations and fund raising.**
